

SAFETY DATA SHEET

Section 1: Identification	
Material	Sodium sulfate, Potassium sulfate and Magnesium sulfate Oral solution 17.5g/3.13g/1.6g per 6 ounce
Recommended use	Osmotically acting Laxative
Manufacturer	Annora Pharma Private Limited, Survey No. 261, Annaram Village, Gummadidala Mandal, Sangareddy, Telangana 502313, India (IND)
Distributor	Camber Pharmaceuticals, Inc., Piscataway, NJ 08854
Section 2: Hazard(s) Identification	
Inhalation	Remove the victim into fresh air. Respiratory problems: consult a doctor/medical service
Skin	Rinse with water. Soap may be used. Take victim to a doctor if irritation persists
Eyes	Rinse with water. Do not apply neutralizing agents. Take victim to an ophthalmologist if irritation persists
Ingestion	Rinse mouth with water. Immediately after ingestion: give lots of water to drink. Victim is fully conscious: immediately induce vomiting. Call Poison Information Centre. Consult a doctor/medical service if you feel unwell.
Section 3: Composition/Information on Ingredients	
Active Ingredient	CAS
Magnesium Sulfate	22189-08-8
Potassium Sulfate	7778-80-5
Sodium Sulfate	7757-82-6
Anhydrous Citric Acid	77-92-9
Malic acid	6915-15-7
Sucralose	56038-12-2
Sodium Benzoate	532-32-1
Strawberry FL	NA
Section 4: First-Aid Measures	
Inhalation	Remove the victim into fresh air. Respiratory problems: consult a doctor/medical service
Skin	Rinse with water. Soap may be used. Take victim to a doctor if irritation persists
Eye	Rinse with water. Do not apply neutralizing agents. Take victim to an ophthalmologist if irritation persists
Ingestion	Rinse mouth with water. Immediately after ingestion: give lots of water to drink. Victim is fully conscious: immediately induce vomiting. Call Poison Information Centre. Consult a doctor/medical service if you feel unwell

Most important symptoms and effects both acute and delayed	
Symptoms	Not available
Other hazards	Not available
UN GHS/EU EINECS	Not available
Effects	Not available
Indication of immediate medical attention and special treatment needed	
Notes for the doctor	Treat symptomatically
Special treatment	Not available
Section 5: Fire-Fighting Measures	
Suitable Extinguishing media	Adapt extinguishing media to the environment
Unsuitable Extinguishing media	No unsuitable extinguishing media known
Firefighting procedures	Dilute toxic gases with water spray
Unusual fire and explosion Hazards	Not available
Hazardous combustion products	Not available
Additional Information	Not available
Section 6: Accidental Release Measures	
Personal precautions	No special precautions required
Emergency procedure	Do not attempt to take action without suitable protective equipment.
Methods and material for containment and cleaning up	
Containment /Cleanup measures	For containment: Contain released substance, pump into suitable containers. Consult "Material-handling" to select material of containers. Plug the leak, cut off the supply. Knock down/dilute dust cloud with water spray. Cleanup measures: Prevent dust cloud formation. Scoop solid spill into closing containers. See "Material-handling" for suitable container materials. Wash down leftovers with plenty of water. Wash clothing and equipment after handling
Prohibited materials	Not available
Section 7: Handling and Storage	
Safe handling	Comply with the legal requirements. Avoid raising dust. Keep away from naked flames/heat. Observe normal hygiene standards. Keep container tightly closed. Measure the concentration in the air regularly. Carry operations in the open/under local exhaust/ventilation or with respiratory protection.

Fire prevention	Not available
Dust Generation preventions	Not available
Environmental precautions	Not available.
Conditions for safe storage, Including any incompatibilities	Store at 20°C to 25°C (68°F to 77°F). Excursions permitted between 15°C to 30°C (59°F to 86°F) See USP controlled room temperature
Technical measure and storage condition	Store at 20°C to 25°C (68°F to 77°F).
Requirements for storage rooms & assembly	Not available
Incompatible materials or ignition sources	Not available
8. Exposure controls / personal protection	
Control parameters	General ventilation normally adequate.
Engineering controls	Ensure good ventilation of the workstation. Extraction to remove dust at its source. Ensure good ventilation of the workstation
Personal protective equipment	
Hands	Impermeable protective gloves
Eyes	Safety glasses. In case of dust production: protective goggles
Skin	Protective clothing
Respiratory protection	Dust production: dust mask with filter type P1
Special requirements for PPE	Not available

Section 9: Physical and Chemical Properties	
Physical State	Oral solution
Description	<p>Each Sodium sulfate, Potassium sulfate and Magnesium sulfate oral solution kit (for adults) (NDC 31722-098-31) contains:</p> <ul style="list-style-type: none"> Two bottles (NDC 31722-098-17) each containing 6-ounces of an oral solution of 17.5 grams sodium sulfate, 3.13 grams potassium sulfate, and 1.6 grams magnesium sulfate as a clear to slightly hazy liquid. When diluted as directed, the solution is clear and colorless. One (1) mixing container with a 16-ounce fill line.
Reactivity	On heating/burning on exposure to temperature rise: release of toxic and corrosive gases/vapours (Sulphur oxides). In molten state reacts violently with (some) metals
Chemical stability under normal ambient Temperature	Stable at ambient temperature (15-30°C).
Possibility of hazardous	Will not occur
Any stabilizer requirement on storage	Not available
Conditions to avoid	Not available
Incompatible materials	Not available
Hazardous decomposition	Not available
Section 11: Toxicological Information	
General Information: Handling of formulated product is not expected to cause any toxicological affects. The data pertains to the ingredient in formulations, rather than this specific formulation.	
Section 12: Ecological Information	
Toxicity	Not available
Persistence and degradability	Not available
Bio accumulative potential	Not available
Mobility in Soil	Not available
Other adverse effects	Not available
Section 13: Disposal Considerations	
Product waste	Dispose in a safe manner in accordance with local/national regulations
Section 14: Transport Information	
UN Number	Not Applicable
UN shipper name	Not Applicable
Transport hazard class	Non Hazardous

Environmental hazards	Not Applicable
Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code	Non Hazardous

Section 15: Regulatory Information

Safety ,health and environmental regulations /legislation specific for the substance or mixture

Component name	CAS number	CERCLA/SARA Emission Reporting
Sodium Sulfate Anhydrous	7757826	Not listed
Magnesium Sulfate	7487-88-9	Not listed
Sucralose	56038132	Not listed
Malic Acid	6915157	Not listed
Mix Berry Flavor	NA	Not listed
Potassium Sulfate	7778805	Not listed
Sodium Benzoate	532321	Not listed
Note:- Superfund Amendments and Reauthorization Act or Superfund or Comprehensive Environment Response, Compensation , and Liability Act of 1980 (CERCLA)		

Section 16: Other Information, including date of preparation or last revision

Issue Date: 30-01-2025

Version: 00

Further information

Revision date: NA

Revision note: 00

The information and recommendations in this safety data sheet are, to the best of our knowledge, accurate as of the date of issue. Nothing herein shall be deemed to create any warranty, express or implied. It is the responsibility of the user to determine the applicability of this information and the suitability of the material or product for any particular purpose.

Annora Pharma Private Limited shall not be held liable for any damage resulting from handling or from contact with the above product. Annora Pharma Private Limited reserves the right to revise this SDS.
